

**Rudy Schreiber - Eagle Scout Project
2016**

My Eagle Scout project was a partnership with Groundwork DC and the National Park Service. We worked at the Fort DuPont activity center. My project consisted of three elements: The first part was to create a raised garden including deer fence and weed-preventative sheeting for park educational outreach, The second part was to lay down weed-prevention sheeting and layering dirt in an existing community Garden, and the third piece was to mark a trail that was confusing for hikers to use. I did all three parts simultaneously using help from Groundwork DC, Fellow Scouts, Personal Friends, Parents of Scouts, Employees of Groundwork and National Park Service.
